Architecture Management Group (AMG-14)

21-22 August 1996

Agenda (Day 1)

Wednesday, 21 August 1996 (IDA Room 121)

0830-0845	Introductory Remarks	Jim Hollenbach
0845-0945	Action Item Review and TSTCore Update	Judith Dahmann
0945-1000	Break	
1015-1115	HLA Baseline Definition, AMG Member Discussion and Call for Approval	Hollenbach/Dahmann
	- Rules 1.0	
	- OMT 1.0	
	- I/F Spec 1.0	
1115-1215	Prebrief of HLA Presentation to MSWG and EXCIMS	Jim Hollenbach
1215-1315	Lunch	
1315-1415	FOM Development Tools	Bob Lutz et al
1415-1515	RTI 1.0 Development Plan	RTI F.0 IPT
1515	Adjourn for the Day	
1530-1630	Declaration Mgt Services Technical Exchange	

Agenda (Day 2)

Thursday, 22 August 1996 (IDA Room 121)

0830-1000	Protofed Presentations of Final Report Plans	
0830-0845	PPF	
0845-0900	JTFp	
0900-0915	Analysis	
0915-0930	Engineering	
0930-1000	Discussion	
1000-1015	Break	
1015-1130	HLA Evolution Process	Judith Dahmann
1130-1200	Presentation of AMG HLA Baseline Results to Dr. Jones	
1200-1300	Lunch	
1300-1400	Wrap-up and Discussion	
1400	Adjourn	

AMG-13 Action Items

1) (DMSO) Review format of federate profile, revise as needed. Distribute revised federate profile format to AMG members and federate developers to guide final reports.

2) (DMSO) Contact MRCI developers to share HLA test procedures.

3) (TSTCore, DMSO, Protofed leads) Develop approach to capture Federation Execution issues (processes, repeating formats).

4) (DMSO, JSIMS, NASM, WARSIM) Examine issues for large scale JSIMS-like exercise (ALSP) scenarios.

5) (DMSO) Organize a government meeting immediately following AMG-13 to address development of RTI versions 1.0 and 2.0.

6) (DMSO/TST) Develop a structured process to support HLA evolution during the transition period.

7) (DMSO/TST) Coordinate detailed RTI development schedules; consider the need for limited early/late distribution of RTI software during the interim period.

8) (AMG) Provide feedback to DMSO on proposed AMG meeting dates during transition period.

AMG-13 Action Items (con't)

9) (DMSO/TST) Update rationale on HLA Rule 7 to reflect language of the OMT.

10) (AMG) Provide feedback on the OMT version 1.0 draft to the OMTWG by 26 July.

11) (TST) Meet with the protofederations individually to gain insights from their prototyping experience (following AMG-14).

12) (I/F Spec WG, Rudolph, Watson) Assess the current I/F Spec to ensure it does not preclude implementation of distributed federates. Provide issue paper for HLA 1.1 cycle.

13) (TST, AMGTECH) Provide programming examples as part of the HLA Technical Library to support RTI versions F.0, 1.0, and 2.0 development.

14) (DMSO, JWARS) Coordinate to verify that results of Analysis Protofederation are addressed in time management and declaration management plans, the I/F Spec, and RTI capabilities.

15) (DMSO, protofed leads) Coordinate on the content of protofederation final reports.

16) (AMG) Provide input by 1 August to DMSO on key points you'd like in the presentation of the HLA to the EXCIMS.
